ARMY AND NAVY NEWS.

Repairs and reconstruction of the naval hospital ship Solace are nearly completed. When that vessel is ready to be placed in commission the vexed question of command will again be brought to the front and become a disturbing part in naval politics. No one interested in the navy has forgotten the trouble engendered by the action of the late executive insisting upon a surgeon commanding the hospital ship Relief.

BONINE HAVING SUCCESS.

R. K. Bonine writes that he is meeting with great success on his tour and that he expects to return to Honolulu with an exceptionally fine lot of lantern slide and moving picture negatives.

THE BYSTANDER

(Continued from Page Four.)

But the pedestrian is likely to have different views on the subject. A chugging juggernaut thundering down the Pali road at the rate of fifty miles an hour is something to fill the hardiest wayfarer with awe. The pedestrian would be pretty likely to disagree with Mr. Joy Rider in regard to the reasonableness of a speed of fifty miles an hour.

The motorist is entitled to reasonable treatment. To say that he should not exceed, say, twenty miles an hour on untraveled roads, would be unfair, probably. But he should know just how fast he can lawfully travel, and then he should be forced to keep within the lawful limits.

For probably sixty per cent of the motorists of Honolulu the provisions of the proposed ordinance are sufficient, but the other forty per cent must be counted on.

COMMERCIAL NEWS

(Continued from Page Four.)

Generally satisfactory conditions on the plantation are responsible for the advance in Waialua. There are rumors of two extra dividends. There is a feeling that a monthly dividend of 1 per cent might be paid, commencing, say, in October. The present rate is one-half per cent, payable on the fifteenth of each month.

Inter-Island, which a week ago showed a little uncertainty, went back to \$110, and stayed there. The announcement of the board of directors that the dividend will be 65 cents a month, is probably responsible for the strengthening of the price. The general impression a week ago was that 60 cents would be the dividend announced. On that basis the probable minimum price of the stock was estimated at \$107. The general feeling now is that there will not be any drop below \$110, and that an advance to \$112 is not beyond the range of possibilities.

There is every reason to believe that Inter-Island will prove as steady a stock at the new capitalization as it was before the increase.

Honolulu Brewing and Malting fell off to \$23.50. The last previous sales recorded were at \$24.50. The drop was probably the result of the Sunday closing regulation issued by the License Commissioners. One hundred and fifty shares of stock went during the week at \$23.50.

Hawaiian Pineapple showed up very strong at \$24. Only a few shares were sold at this figure, and there was not enough in sight at any time to fill an order. This stock has shown a tendency to range from \$22 to \$24. The last sale prior to Monday was at \$22.625.

Cable advices from San Francisco, to a local broker, indicate that Hawaiian sugar stocks are very strong on the Coast, with a good demand at satisfactory prices. A dispatch received yesterday morning gives the following quotations:

Hawaiian Commercial, \$32 bid, \$33 asked; Pauhanu, \$25.50 bid, \$26.50 asked; Makaweli, \$43 bid, \$44 asked; Onomea, \$45 bid, \$46 asked; Honokaa, \$17 bid, \$17.75 asked.

In general these quotations are rather above those prevailing on the local market at closing time yesterday. Onomea, for which \$45 was bid on the Coast, closed at \$44.625, asked, on the local 'Change yesterday, and the last sale was recorded at \$44.50.

University Club Gets Home.

A deal was closed during the week whereby the University Club comes into possession of the property known as Haleleia Lawn at Richards and Hotel streets. The club has had the proposition under consideration for some time, but was able to arrive at no definite conclusion owing to the inability of the holders to give a clear title. The matter finally was straightened out and the deal consummated.

\$40,000 for Armory.

The Honolulu Merchants' Association has taken upon itself to raise the \$40,000 required for the construction of a thoroughly up-to-date armory for the National Guard of Hawaii. Steps will be taken at once to have plans drawn up and the actual work of raising the money will then be undertaken.

Pearl Harbor Drydock.

During the past week work was commenced on the big naval drydock for the Pearl Harbor Naval Station. This job will be rushed along rapidly, and the authorities are desirous of having the dock finished as soon as possible after the completion of the dredging job.

IMPROVED DYEING METHODS

J. ABADIE, proprietor of the well-known FRENCH LAUNDRY on Beretania street, opposite Richards street, returned from a visit to the mainland on Friday's Alameda. During his absence he visited all of the leading laundries and dyeing establishments in California, and finally secured the latest process of the refined art of "dry cleaning" and the most up-to-date methods in operation in the advanced establishments on the coast. He secured the EXCLUSIVE AGENCY for the F. THOMAS PARISIAN DYEING WORKS. Any fabric can be cleaned in that establishment, the same good results following the treatment of a carpet will be experienced by those who entrust to them the cleaning of their ostrich feathers. They have at their disposal all of the methods known to science; they can take care of the whole range of textiles.

Parties here having goods to be dyed should notify the French Laundry and the parcel will be called for, sent to San Francisco and returned after treatment by whatever process the customer may desire. Articles sent by the Alameda will be returned by the same steamer on its return trip, and coast prices will prevail. THE FRENCH LAUNDRY will guarantee all work.
